

Steam bath control

Ideal solution for any steam generator

Steam bath control

Kit pCO compact + pGDN CAREL

The main functions managed by the pCO compact control are:

- **Temperature** and setpoint,
- extraction **ventilation**,
- **Up to four essences**
- **illumination** ON/OFF,
- one or two **steam generators** (both ON/OFF or modulating types),
- ON/OFF time bands.

The **user interface** consists of one or more remotable semigraphic LCD terminals, for a fast view of parameters and functions.

The pCO controller can communicate with a **local supervision system**, reachable **anywhere in the world** thanks to the Plantgate service.

*pCO5 compact CAREL controllers
with or without the built-in terminal.*
