humiSteam CAREL UEW-UEX series

UEW steam generator
humiSteam Wellness

UEX electrodes humidifier
humiSteam x-plus

Plantgate for humidifiers

How does it work

CAREL
humidifier

pCOWEB SE
CAREL

Cabled network

RUT100

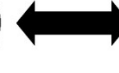

Customer
router

0101010101010

101010101010

pCOWeb is a webserver, supplied by Climaset srl, that is to be installed into the *BMS port* of the humidifier internal board. Thanks to its intuitive webpages, the user can very easily **see and change parameters** of the humidifier.

RUT100 is the autoinstalling kit, supplied by Climaset srl, for **safely** connecting the pCOWeb (through a *VPN encrypted connection*) to the customer router and then to the Plantgate CLOUD, **no configuration is needed on customer router.**

The user can then use the **Plantgate APP** and remotely manage the humidifier from its mobile device, **from every part of the globe!**
