Plantgate for a single board

Multifunction cabin solution

Multifunction cabin

pCOWEB SE
CAREL

pCO5+ CAREL
controller

pCOWeb is a webserver, supplied by Climaset srl, that brings supervision for a **single pCO5+ Carel controller**. pCOWeb is installed into the BMS card slot and provides intuitive webpages for the steam bath management.

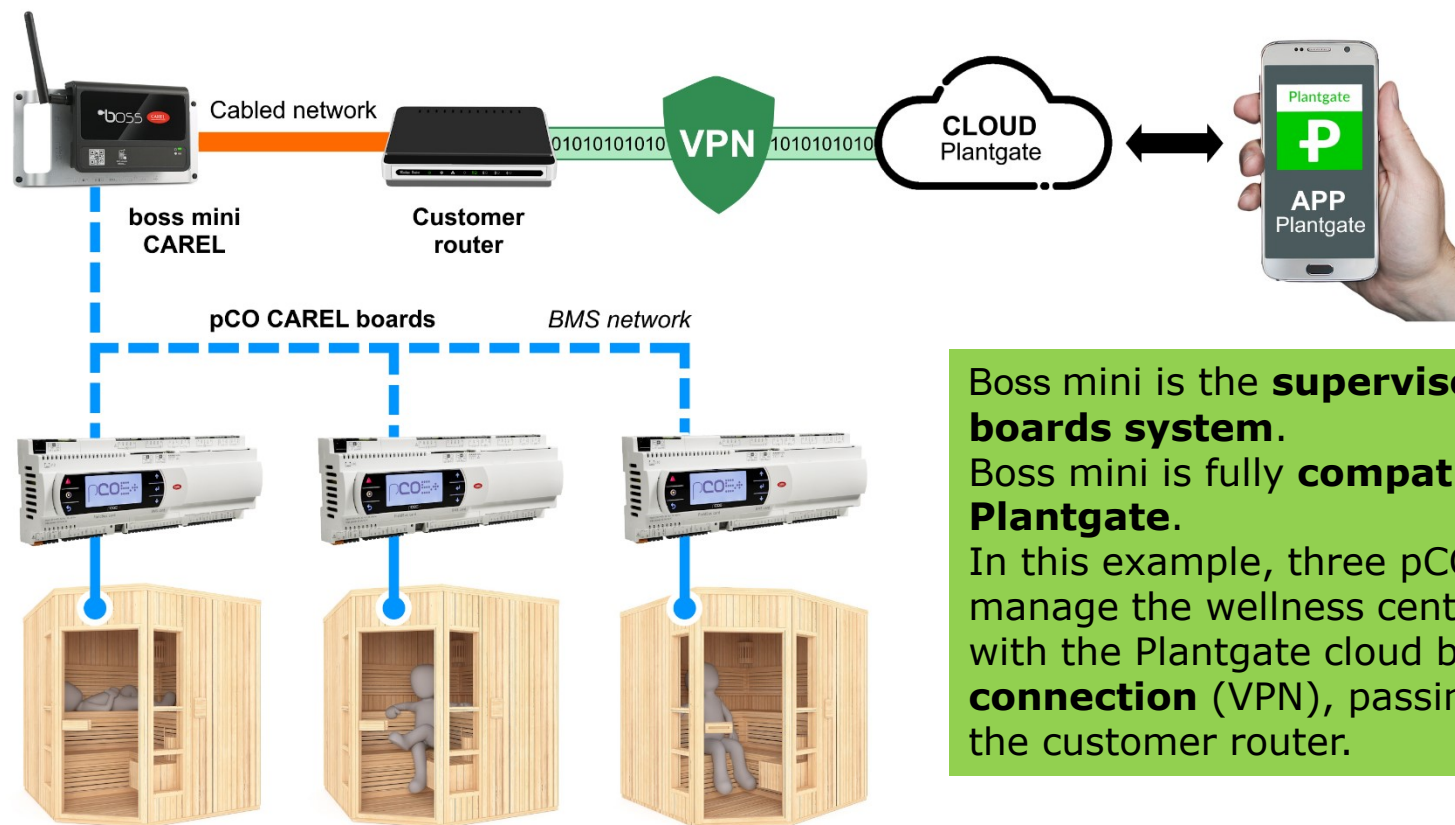

RUT100 is the autoinstalling kit, supplied by Climaset srl, for **safely** connecting the pCOWeb (through a *VPN encrypted connection*) to the customer router and then to the Plantgate CLOUD, **no configuration is needed on customer router**.

With this setup, you don't need a static IP address, just open the **Plantgate APP** and manage the wellness system **from anywhere!**

Plantgate for multiple boards

Multifunction-spa solution

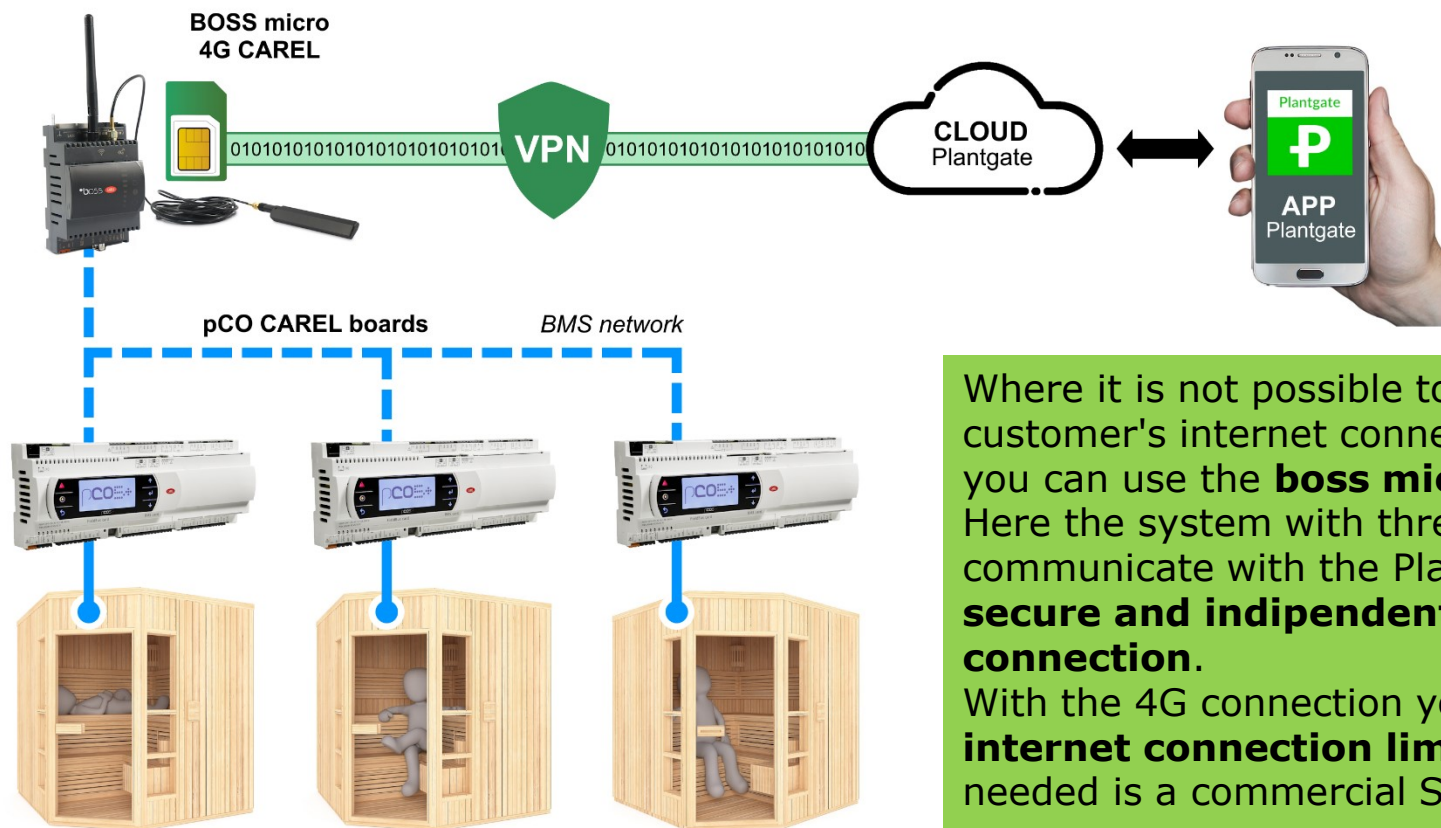

Boss mini is the **supervisor for multiple boards system**.
Boss mini is fully **compatible** with the **Plantgate**.
In this example, three pCO boards that manage the wellness center **communicate** with the Plantgate cloud by using a **secure connection** (VPN), passing also through the customer router.

With this setup, you don't need a static IP address, simply open the **Plantgate APP** and manage the wellness system **from anywhere!**

Plantgate for multiple boards

Multifunction-spa solution with SIM 4G

Where it is not possible to use the customer's internet connection, you can use the **boss micro 4G**. Here the system with three boards communicate with the Plantgate by using a **secure and independent VPN connection**. With the 4G connection you can **overcome internet connection limitations**, all is needed is a commercial SIM (not provided).

By using a 4G connection, the user can open the **Plantgate APP** and manage its wellness system **from any part of the world!**
